SPECIAL ANNOUNCEMENT

Earth Day 2020 is Wednesday, April 22nd.

The theme for Earth Day 2020 is climate action. The enormous challenge — but also the vast opportunities — of action on climate change have distinguished the issue as the most pressing topic for the 50th anniversary. (www.earthday.org)

The Green Faith working group has put together a list of climate change video resources to explore in honor of Earth Day. Feel free to share any others you find with your community!
